# NUNAVUT

- is Canada's largest and newest territory, making up nearly 20 percent of the country
- this territory was created on April 1, 1999, when the Northwest Territories was split into a western part, still known as the Northwest Territory of the Inuits, and an eastern part, known as the Territory of Nunavut.
- is located in the eastern Canadian Arctic

Resolute Bay

early Inuit settlement site

pack ice

- Nunavut is the native homeland of the Inuit, who make up nearly 85 percent of the total population
- the word Nunavut means "our land" in Inuktitut, the language of the Inuit.
- as one of the regions bordering on the Arctic Ocean, Nunavut belongs to the circumpolar world, or those areas surrounding the pole

Prince Leopold island

Polar Bear  
on the ice flow

- What does the word Nunavut mean?
- When was the territory created?

- Our land
- On April 1, 1999
