The Great White Shark

Dictogloss

One Saturday morning, the residents of New High Street in Oxford, woke up to see a great white shark on the roof of Bill Heine's house.

Bill was delighted. For months, he had been preparing his house to support the weight of the 200-kilo fibreglass shark. A sculptor had built the shark in a shed and a huge crane had lifted the monster into a hole in the roof.

The police were called but they had to admit that there was no law against putting sharks on roofs.
